Memo No. 3185-87      HERC/T-155

Dated:- 7-1-2010

**Subject:- Approval for carrying out independent third party meter testing agencies.**

As per para 5.4.9 of National Electricity Policy, 2005 notified by Ministry of Power, Government of India, the SERCs should put in place independent third party meter testing arrangements.

The issue has been considered by Haryana Electricity Regulatory Commission and I have been directed to inform you that all meter testing laboratories which are accredited with National Accreditation Board for Testing and Calibration Laboratories ( NABL) at present and in future apart from National Physical Laboratory (NPL) are approved for third-party testing of meters. The consumer may decide himself and approach any of such laboratories as per his convenience and choice for third-party testing of his meter if required by him. The names and addresses of such laboratories already set up in the Northern India apart from National Physical Laboratory are enclosed which may be circulated through a public notice and placed on your websites.

This is with the approval of the Hon'ble Commission.

Dy. Director (Distribution)  
HERC, Panchkula

**The names and addresses of laboratories accredited with National Accreditation Board for Testing and Calibration Laboratories ( NABL) already set up in the Northern India and National Physical Laboratory**
